Yi Shouzhuo

School of Computer Science

Hongyi Honor Class

Wuhan University

Mobile: +86 13667280239

Email: yishouzhuo@whu.edu.cn

Education

- Major: Computer Science and Technology (Hongyi Honor Class) [2024 - 2028]
  GPA: 3.87/4.00 (5/29)
  Average: 92.65/100 (5/29)
  CET-4: 608 CET-6: 557
  Courses and grades: Advanced Programming Language A (97), Data Structures A (97), Computer Organization and Architecture A (85), Operating Systems A (91), Algorithm Design and Analysis (96)

Research Experience

- **SIGMA, Wuhan University** [Jan. 2025 - Jul. 2025]
  - Advisor: Dr. Lvyang Tong (Postdoctoral Researcher, WHU)
  - Program: Student Innovation and Entrepreneurship Training Program
  - Research: Multimodal interpretable models for fetal congenital heart disease
  - Output: The provincial-level project was successfully concluded
- **SIGMA, Wuhan University** [Sep. 2025 - Jul. 2026]
  - Advisor: Assoc. Prof. Youfa Liu (School of Computer Science, WHU)
  - Research: Source-free domain adaptation based on large vision–language models
  - Output: One paper in preparation
- **ARTE Group, University of Chinese Academy of Sciences** [Jul. 2026 - Present]
  - Advisor: Prof. Tong Zhang (Tenure-track Assistant Professor, UCAS)
  - Research: World models

Project Experience

- **ByteDance Engineering Bootcamp — Story-to-Video** [Dec. 2025]
  - Built the full pipeline from natural-text input to video output: visual storyboard management, per-shot editing, and integrated image generation, dynamic video rendering, and AI-powered voiceover
  - Contributed to the deployment of backend models (LLM/TTS) and the design of the communication links between the backend and the server
  - Successfully completed the ByteDance Engineering Bootcamp

Skills

- Proficient in Python/PyTorch; early research training has built up the ability to take an idea from concept to code, experiments, and parameter tuning
- Familiar with the essential tooling: ssh/LaTeX

Awards and Honors

- **2026 Lei Jun Scholarship for Undergraduate Students in Computer Science** [University]

- **2024-2025 16th Blue Bridge Cup, C/C++ — Second Prize** [Provincial]
- **2025-2026 National College Mathematics Competition, Non-Mathematics Track A — Second Prize** [Provincial]
- **2025-2026 2nd CCF Algorithm Capability Contest — Second Prize** [Provincial]
- **2025-2026 Group Programming Ladder Tournament (GPLT) — National Third Prize** [National]
- **2026 National Collegiate Computer Systems Capability Contest — Operating System Design Contest, OS Kernel Implementation Track — National Second Prize** [National]

Self Assessment

- **Strong mathematical understanding and solid theoretical learning ability; self-motivated and quick to adapt; eager to turn understanding into practical contributions in challenging research and to prove my capability as a researcher**
